RADAMANTHUS BATNAG

DEVOPS, WEB DEVELOPER AND SCRUM MASTER
HTTPS://GITHUB.COM/RADAMANTHUS

SKILLS

I have 6+ years of Rails development experience and 5+ years of Devops experience.

I worked on various roles in and around a software team: Developer, DBA, Devops, QA, Project Manager, and Customer Support.

CERTIFICATIONS

AWS Solutions Architect – Associate (2016)
ScrumAlliance Scrum Master (2009)
Sun Certified Java Programmer (2003)
IBM DB2 for Windows NT DBA (1998)

EXPERIENCE

SENIOR DEVELOPER • TRADEGECKO • AUGUST 2018 - PRESENT
I currently work with the systems team to tackle common platform issues on performance, stability and scalability.

For my first five months I worked with the Customer Support team to investigate and provide solutions to ongoing customer issues. I also worked with the rest of the software engineering team to analyze support ticket data and understand which components of the TradeGecko application need further polishing.

INDEPENDENT DEVOPS AND RAILS CONSULTANT • APRIL 2018 – AUGUST 2018
Provided performance and cost optimization review for clients' existing AWS infrastructure.

APPLICATION SUPPORT ENGINEER • ENGINE YARD • 2013 – APRIL 2018
Worked as an external devops engineer for customers running Rails, PHP and Node.js applications on the Engine Yard platform. Concurrently worked as the lead developer and maintainer of chef recipes for setting up Redis, Sidekiq, Elasticsearch, Solr, and other related software on the Engine Yard platform.

SENIOR RAILS DEVELOPER • AELOGICA • 2011 - 2013
Mentored junior developers and started the company's internship program.

SENIOR RAILS DEVELOPER • EXIST • 2010 - 2011
Worked as a developer on an in-house startup project (Infinite.ly – social presence manager) and as a Rails architect for an outsourced project for Telmate (telco services for correctional facilities).
